INTRODUCTION

What is this document?

This document sets out a limited number of focused changes to the Pre Submission draft Local Plan. Taken together, the Pre-submission Draft Local Plan and the Addendum of Focused Changes is what the Council wishes to submit to the Government for examination as its submission draft local plan.

Who has prepared it and why has it been prepared?

This document has been prepared by Melton Borough Council. The focused changes proposed are to reflect and respond to new, updated or revised technical studies and information received during or after the consultation on the Pre Submission Draft Local Plan. In doing so, they also respond to many of the representations made about the draft local plan around these themes.

These focused changes are necessary for soundness and/or legal compliance on the main issues that the local plan seeks to address, namely:

1. Setting a housing requirement that meets the Borough's own housing needs, supports its economic ambitions and meets any unmet housing needs arising from elsewhere in the HMA;
2. Identifying an achievable portfolio of sufficient suitable and sustainable housing land which will provide a deliverable five year

supply of housing land and meet the Boroughs housing requirement;

3. Delivering affordable housing;
4. Meeting the accommodation needs of Gypsies, Travellers and Travelling Showpeople; and
5. Delivering the Melton Mowbray Transport Strategy, in particular its key component, the Melton Mowbray Distributor Road

The main new items of information or evidence on which these focused changes rely are referenced at the appropriate point in this document and its appendices and are all available to view on www.meltonplan.gov.uk alongside this document.

Within its scope, the focused changes also respond to specific detailed information provided in consultation responses or ongoing dialogue with statutory bodies such as Leicestershire County Council (as the local education authority and local highways and transportation authority), the Environment Agency, Historic England, and utility companies, such as Severn Trent.

The Council does not consider that these focused changes result in a change to the plan's strategy, rather that they give clarity, realism and further detail on how, where, when and by whom the key components of that strategy will be delivered. Their publication does not preclude further modifications that could be suggested by the Council and others up to and during the Public Examination into the Melton Local Plan, or be recommended by a Local Plan Inspector in due course.

How and when can I comment on the focused changes?

You can make representations on the proposed focused changes online, via the Council's website, [ww.meltonplan.co.uk](http://www.meltonplan.co.uk). [\[insert incentive here\]](#).

If you are unable to respond this way, you can complete an electronic version of the representation form, and e-mail it to:

planningpolicy@melton.gov.uk

If you are unable to respond electronically, you can fill in a paper copy of the representation form and return it to:

Local Plans Manager, Melton Borough Council, Parkside, Burton Street, Melton Mowbray, LE13 1BF

Any representations you wish to make on the proposed focused changes must be received no later than time, day, date August 2017

Please note: Representations must indicate the focused change reference number(s) to which they relate. Representations that do not relate specifically to the focused changes will not be considered duly made, and will not be considered by the Council prior to submission of the plan to the Government for Examination, and do not have to be considered by a Local Plan Inspector.

How is the remainder of this document set out?

The remainder of this document summarises the proposed changes and signposts you to appendices where each proposed change is set out in full.

Is anything else being published?

Yes. As this consultation is being carried out to comply with Regulation 19 of the Town and County Planning (Local Planning)(England) Regulations 2012, the following documents (which are all available to view at www.meltonplan.co.uk) are also published alongside this document:

- Duty to Co-operate Statement Addendum
- Consultation Statement Addendum
- Habitats Regulations Assessment Screening
- Formal notice of the consultation
- Guidance on completing the representation form

Is there any other information I should be aware of?

For more information, visit www.meltonplan.co.uk. Updates and latest news will be provided here and there is the option to sign up for email updates. Updates and latest news will also be publicised via twitter @meltonplan and Facebook, Melton Local Plan.

I made representations on the draft Local Plan in December 2016, but can't see any evidence here that you have considered them.

Full schedules of representations made and the Council's responses to them have been published alongside this document on www.meltonplan.co.uk, and can be viewed in hard copy at the Council Offices in Melton Mowbray. If the issue you commented on is not covered in this document, then the responses schedule may indicate that the Council will suggest a modification to the plan when it submits it to the Inspector. Otherwise, the Council is not proposing to change the draft plan in response to your comments. Again, this is indicated in the schedules of representations.

SUMMARY OF THE PROPOSED CHANGES

Table 1 sets out the sections of the draft Local Plan where changes are proposed and identifies whether the changes affect policies and/ or the reasoned justification. It also sets out why the changes are being proposed and what the main effects on the plan are, compared with the pre-submission draft local plan. It indicates which appendix of the document sets out the proposed change in detail.

OTHER INFORMATION

A 'tracked 'changes' document has also been prepared to help you see exactly how the plan with its proposed changes would differ from the November 2016 Pre-Submission Draft one. This is available online at www.meltonplan.co.uk.

[Add in here about interactive map](#). This is also available at www.meltonplan.co.uk.

APPENDICES

Appendices 1-13 set out the exact changes that are proposed to the Pre Submission Draft Local Plan.

Please refer to Table 1 to check if the proposed change is the replacement of a whole section or changes to limited words or phrases. The following approach has been used to help you identify the changes made:

- i) Replacement sections are introduced as such and appear as normal text - this may include bold text too if policy wording is involved.
- ii) New text inserted is indicated as underlined text
- iii) Text in the draft local plan that it is proposed to delete is indicated as ~~strikethrough text~~.
